IV-SCFT-70 / Price Rs. 4200/-

IV-SCFT-70 + 4 wheels / Price Rs. 4600/-

Open size	100*45*47CM
Folding size	64*39*9CM
Wheel material	Stainless steel wheel frame crystal climbing wheel
Baseplate	80MM*390MM
Wheel size	10cm
Material Quality	PP
Baseplate material	Aluminum alloy
Baseplate surface treatment	Spray paint
Safe load-bearing	70KG
Go stairs load-bearing	35KG
Product net weight	3.7KG

New

(1) Including 4 roller skates, (2) 2 turntables, (3) 2 packing plates, (4) 2 steering handles, (5) 2 link-up bars, (6) one draw bar, (7) one metal box.

- For short, variable transportation distances.
- For installation works and movement of heavy loads.
- The steering handle give you precise control making it easy to manoeuvre large machinery or into tight areas.
- Moving speed not exceeding 5m/min.
- Minimum turning circle is 3m

IMPORTANT!

- All maximum carrying capacities are based for use on a steel surface, Which withstands the pressure of the chain-roller. For safety, the carrying capacities in complete sets are calculated so that 2 Roller Skates could support the full load on uneven surfaces.
- The track surface is important for the safe transportation of the load, not the carrying capacity of the Roller Skate. Tiles are unsuitable. Movement on tarmac and concrete is restricted. In these cases it is recommended to put a steel plate of a minimum of 10mm thickness underneath.
- Due to the little effort required to overcome the rolling resistance (4-7% of the total load) precautionary measures must be taken for use on inclined surfaces.

Hydraulic jacks for repairs, maintenance and installation of heavy machines

- Compact and stable construction.
- Can be used in any position.
- Housing revolves 360 degrees.
- Lowering speed can be accurately adjusted.
- Protected against overloading.
- Pump Lever is removable.
- According to CE and US standard USA ASME/ANSI B 30.1.1986
